CENTER
DOTHAN, ALABAMA

This 40-hour seminar is intended for intermediate to advanced canine teams. The areas of training that will be covered are drug detection, explosives detection, patrol tactics and tracking. This training seminar will enhance the K9 team's ability for success during real world deployments through effective training scenarios. The instructors for this year's seminar are all veteran canine handlers with multiple years of experience training and working police dogs.

This year we will be offering a K9 certification through National Narcotic Detector Dog Association (NNDDA). The cost for the certification is \$55.00, which includes membership dues for NNDDA.

To register, go to: <https://www.dothanpd.org/k9-seminar-registration/>
